

Gabeweb Limited

Every system your hotel runs on, from **one team**.

Website and online booking, hotel and accounting software, Wi-Fi, CCTV, POS, intercom and smart doors. Gabeweb designs, installs and supports all of it, from site survey to go-live, with one number to call.

Websites we've built and launched

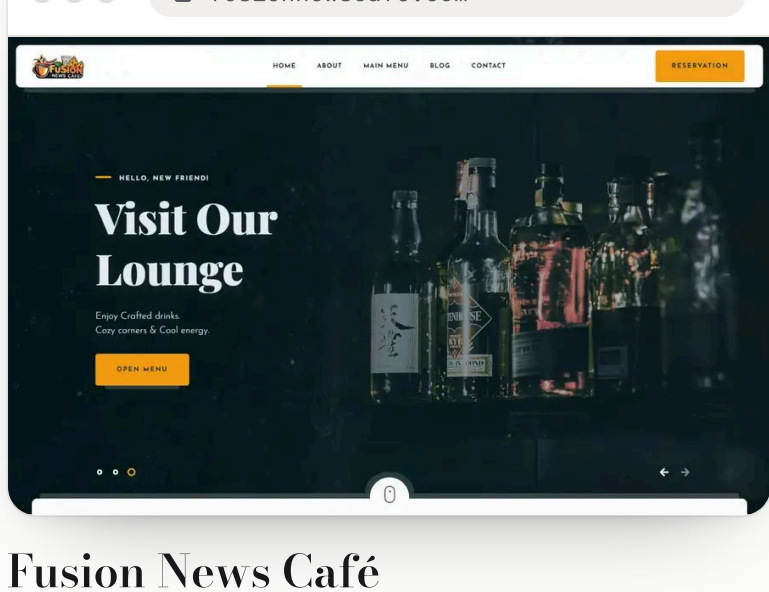

Each one designed by Gabeweb in Figma, approved by the client, then built and launched. Tap any site to open it.

Horizon Hotels & Suites

Website for a five-star hotel in Owerri: rooms and suites, dining, the conference hall and reservations.

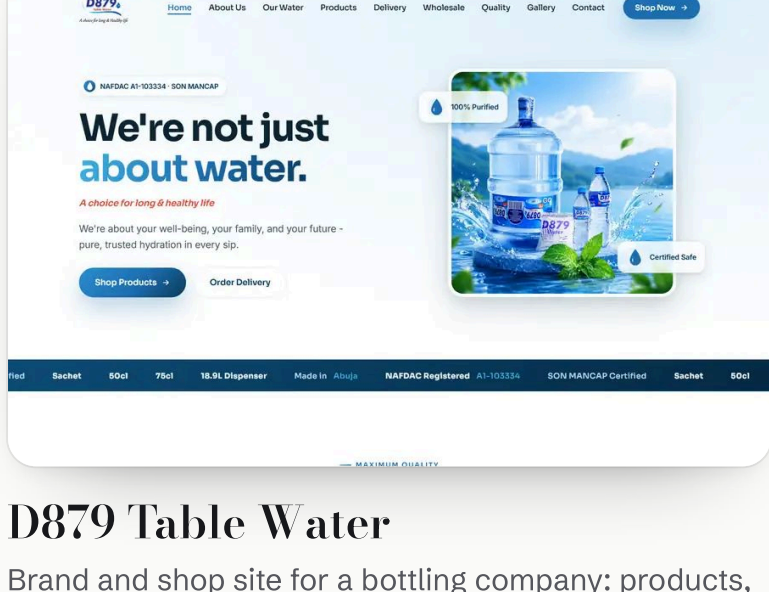

[Visit site](#)

Fusion News Café

Restaurant and lounge website with table reservations, the full menu and a blog.

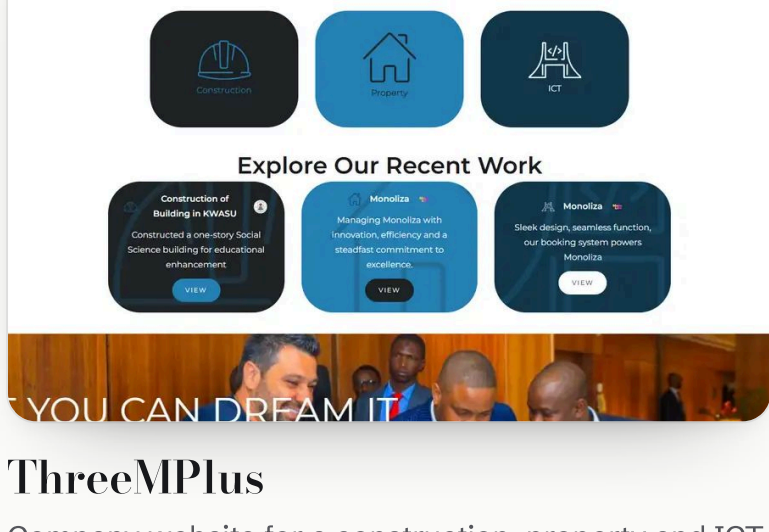

[Visit site](#)

D879 Table Water

Brand and shop site for a bottling company: products, delivery and wholesale orders.

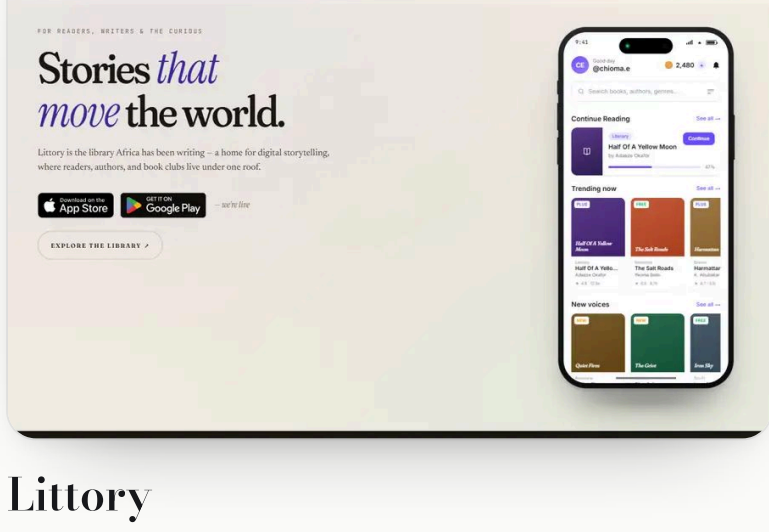

[Visit site](#)

ThreeMPlus

Company website for a construction, property and ICT group.

[Visit site](#)

Littory

Website for the Littory reading app, with App Store and Google Play downloads.

[Visit site](#)

Consulate of Colombia in Nigeria

The honorary consulate's official site: news, an interactive gallery, the community register and contact.

[The site asks for login details to open.](#)

[Visit site](#)

Screens captured from the live sites on 5 October 2026. The Colombia screens are supplied by Gabeweb because the site needs a login.

Every system a hotel runs on, from one team

The seven work packages in our hotel proposals. Quantities for the network, CCTV, intercom and doors are confirmed after a site survey.

A Website & online booking

A site that turns visitors into direct bookings.

- Booking engine with live availability
- Paystack & Flutterwave payments
- Rooms, menu and gallery your team edits
- SEO, analytics, domain email

 Running at Horizon

B Hotel management software

Starry HMS, our own system, on a one-time licence.

- Front office to night audit
- Tills, laundry, stores and payroll
- Full accounting and owner reports
- Training and 12-month support

 Running at Horizon

C Internet & Wi-Fi

One Wi-Fi name from the lobby to every room.

- Starlink satellite internet
- MikroTik routing, TP-Link Omada access points
- Separate guest, staff and POS networks
- Priority bandwidth for tills and accounts

 Running at Horizon

D CCTV surveillance

Full-colour cameras you can watch from your phone.

- Hikvision 5MP full-colour cameras
- Recorder with at least 14 days of footage
- Live view on phone, PC and the security desk
- Motion alerts, UPS-backed power

 Running at Horizon

E POS & central server

Every till and office reporting to one server, live.

- Dual-screen POS for restaurant and bar
- All-in-one desktops for reception, accounts and store
- Receipt and kitchen printers, cash drawers
- A central server for the hotel software

 Running at Horizon

F Intercom

A phone in every room and department, free to call.

- Panasonic PABX system
- Room to reception, kitchen and housekeeping
- Wake-up calls and do-not-disturb
- Outside lines to rooms and departments

 Running at Horizon

G Smart doors & energy switches

Key cards that expire at check-out, and rooms that power down.

- RFID, keypad, fingerprint or face-ID locks
- Card encoder at reception
- Energy switches: power only with the card in
- Branded guest key cards

 Running at Horizon

 Installed and running at Horizon Hotels & Suites, Owerri

Equipment we install: Starlink · MikroTik · TP-Link Omada · Hikvision · Panasonic · Mifare RFID & TTLock

More from Gabeweb

AI products, drone coverage, apps, web platforms and design, for hotels and for every other kind of business.

Drone & aerial coverage

Ground and drone coverage planned to tell the whole story. Show your property, rooftop and grounds from the air on your website, social media and booking platforms.

- Aerial photography
- Cinematic drone video
- Property showcase films
- Event & corporate coverage
- Construction progress
- Location scouting

Website security & care

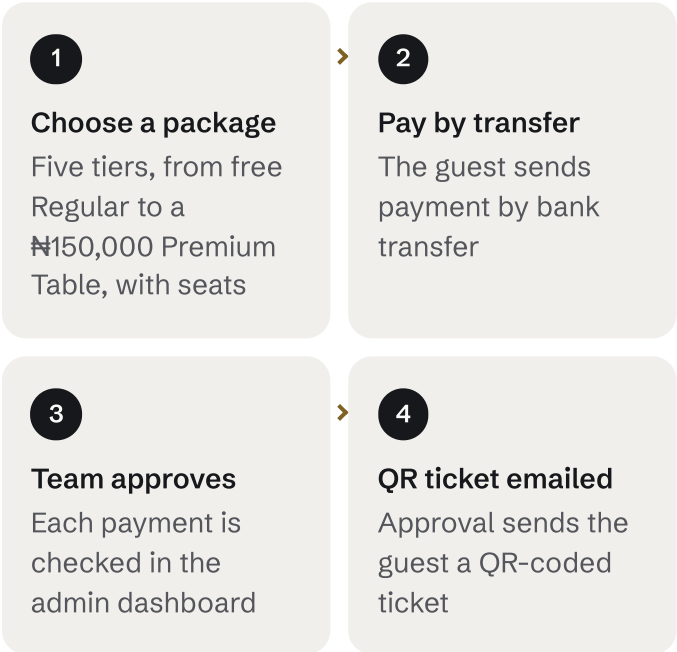

More work for hotels and venues

Ticketing for a comedy night, a hotel's print identity, and a hacked website made safe again.

Lavianto Lounge, Owerri • 10 July 2026 • Delivered

Seriously Joking: live ticketing

A complete ticketing system for a comedy night: a public booking site and a private admin dashboard on one backend.

Payment rejected? The guest gets an email with the reason.

Email automation

Horizon Hotels & Suites • In daily use

Hotel brand & print

- ✓ Complimentary breakfast tickets, eight to an A4 sheet
- ✓ Bar inventory templates linked to the central store
- ✓ AGM and board decks, mission and vision slides

Illustration of the ticket layout, in Horizon's crimson and gold

Horizon Hotels & Suites • Resolved

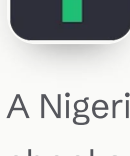

Website security recovery

The hotel's WordPress sites were hiding malicious PHP backdoors. We found and removed them, wrote an incident report and set a plan to keep the sites clean.

Apps beyond hotels

The same team ships payments, user accounts, admin dashboards and app-store releases.

Market2pot and UniPurse are ready-built and for sale.

Littory

Live on the App Store and Google Play

A Nigeria-first reading and publishing app: ebooks, book clubs, author tipping, subscriptions and in-app coin purchases.

Gabeweb designed it in Figma, built the app and its website, and shipped it to both stores.

App Store

Google Play

littoryofficial.com

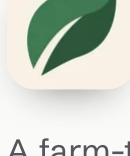

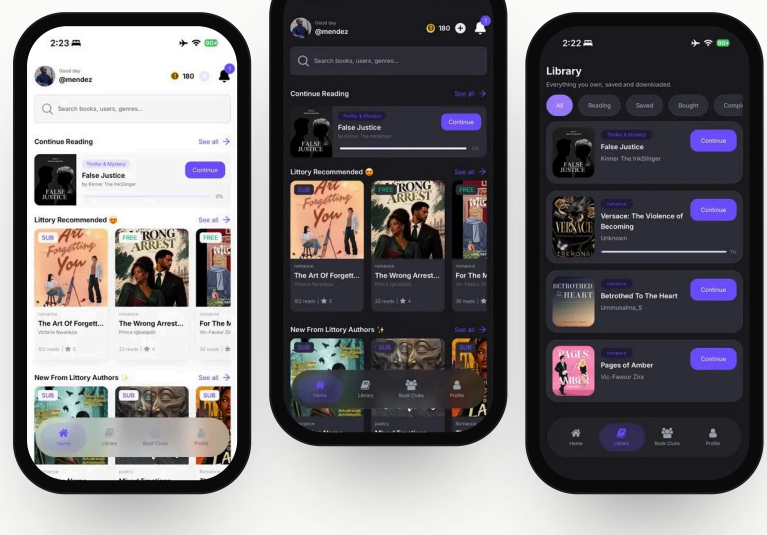

React Native

Expo

Convex

StoreKit · Paystack

Market2pot

Ready-built · for sale

A farm-to-household produce marketplace.

Households find verified farmers near them and order vegetables, fruit, grains and tubers, poultry and eggs. Farmers set up a farm profile, list their produce and chat with buyers. Phone sign-in, cart, orders, messages and bank-account checks for farmers.

The full build is available to an investor or business. We customise it to your brand and launch it for you.

Twilio

Left and right: real app screens. Middle: the home screen redrawn with sample produce photos and farm names.

UniPurse

Ready-built · for sale

An Ajo and esusu savings app. Members create or join savings circles, contributions are collected automatically and payouts rotate on schedule, with an insurance pool that covers missed contributions. Group chat, in-app support and a staff dashboard with director, support, KYC and audit roles.

The full build is available to an investor or business. We customise it to your brand and launch it for you.

From first visit to go-live

Nothing is built until you've seen it and said yes.

1

Site survey

We walk the building with your team: store, bars, front desk and server room. Equipment quantities are confirmed here.

2

Designed in Figma

Gabeweb designs every screen in Figma. You click through the prototype and approve it before any code is written.

3

Phased build & install

Delivered in milestones. You review and test each one before the next starts.

4

Training & go-live

Staff accounts, data import and hands-on training for every role, then support after launch.

Let's talk about your project.

Tell Gabriel what you're building or fixing. He'll come back with a clear scope and a quotation, after a site visit where the job needs one.
